After more than one year's work, the last months working days and nights to be ready, contacts with "all the world", committee meetings and so on, we suddenly met all our friends from 45 nations in the beginning of August.

We, the whole veteran family, had a wonderful week of competitions, 2 670 competitors and their supporters, in all more than 4 000 enthusiasts. During the competition week from the first 100 m heat on Monday 8th until the last competitor had finished the marathon run on Saturday afternoon the 500 officials registered results from 9 to 9 o'clock every day.

In the nine age classes for men and women we witnessed more than 6 200 starts in the different events. 44 world master (veteran) age group records for men were beaten and 293 results were better than and 24 equal to the Toronto winning performances.

Our medical group, before the competitions worried about what could happen, was impressed by the well-trained and healthy veterans. No serious accidents or diseases occurred.

At two meetings, on Sunday 7th and Friday 12th, the new World Veteran Athletic Association was constituted and Don Farquharson, Canada, was elected president of the executive council.

During the week when not competing we spent the time together in the big reception hall where we also said farewell at our jolly fellowship party on Saturday night.

We met the spirit and the idea of the veteran championships. A sports journalist, Ulf Jansson, expressed in his column of August 14th what we felt. We have got his permission to reproduce his article in facsimile.

When the championships were over we missed you all wonderful friends and hope to meet you soon again. Next meeting is the European Veteran (Masters) Athletic Championships in Italy in the autumn of 1978 Cesare Beccalli has promised. The next World Veteran Athletic Championships will be arranged in the autumn of 1979. The place is not yet decided. In the beginning of 1978 we shall know. Then we will all meet again.

#### A MESSAGE FROM THE PRESIDENT OF THE WORLD VETERANS ATHLETIC ASSOCIATION

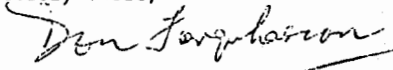

During the First World Master's Championships in Toronto 1975 a World Veteran body was formed and the main aims and purposes outlined. No constitution was adopted and nor was a formal executive voted. Instead, a Steering Committee was elected under the chairmanship of Jack Fitzgerald of England and charged with the responsibility of laying the groundwork for the new organization. Much correspondence and a meeting at Coventry, England (1976) enabled this group to set the scene for more formal organization at Göteborg on 7th August 1977.

At this meeting the name "World Veteran Athletic Association" was adopted and I received the signal honour of becoming the first President. My Vice President is Jacques Serruys of Belgium, the able organizer of this year's I.G.A.L. 10 KM and 25 KM events in Bruges. Secretary is Roland Jerneryd whose ability needs no elaboration after the Second World Championships whilst our treasurer is Harm Hendricks of Holland who also became well known both on the track and at the meetings this year. In addition, representatives of the Continental Areas and a Women's representative will join us to form the Executive Committee. We have the significant job of welding the evergrowing Veteran Membership into a World body whose views will be represented by us internationally. I humbly trust that we are equal to the task.

In order to carry it out we must have the backing and active assistance of all veterans however. At present not all countries have organized National Veteran (Masters) bodies. If yours has not, get in touch with other interested athletes, form a National group and send the Secretary, Roland Jerneryd, details of your executive, and from time to time, your views and aims.

We in turn, will send you back World News and Views to inform your membership. Those of you who live in countries where there is already a National body will, I hope, continue to support it and see that your views are reflected upwards to us. Less than two years will bring us to the 3rd World Veterans Championships the venue of which will be decided shortly. At that time we will, I trust, have much progress to report.

Sincerely Yours,

Don Farquharson

**GÖTEBORG (GT)** Titta på alla dessa ansikten!  
En japan, en amerikan, en svensk, en västtysk, en engelsman. Alla har de någonting gemensamt:

**De utstrålar harmoni!**

Det är inte vetenskapligt fastslaget att det skulle vara nyttigt med idrott, men under veteran-VM den gångna veckan i Göteborg tycker jag mig ha fått det avgörande beviset.

Visst är det lättare att åldras om man gör det som motionär!

Många tycker säkert att det är vansinnigt att 70-åringar, 80-åringar och 90-åringar ställer upp och tävlar mot varandra.

Risken för hjärtslag, benbrott eller i varje fall muskelbristningar måste vara stor. Det handlar dock om mycket gamla människor, som måste vara ömtåliga.

Men nu råkar det faktiskt vara så, att tävlingen är idrottens livsnerv, dess yttersta mål. Utan tävling skulle idrotten vara död.

Tänk vilket självförtroende dessa människor har!

Det är väl inte alla gånger så lätt att bli gammal. Man känner sig undanskuffad, onyttig och kanske satt på undantag. Det heter att man inte längre kan bidra till produktionen.

Då är idrotten ett bra sätt att behålla självkänslan. Just vetskapen om att man känner och behåller sin kropp betyder så oerhört mycket.

**Ulf Jansson**

**Kommenterar**

Det har gjorts försök – till och med på GIH och i vissa svenska idrottsförbund – att släta ut detta faktum. Man har antytt att det skulle vara fullt att vinna, fullt att slå ut andra människor.

Men så fungerar det inte ute på fältet i praktiken. Där är man nyliken på hur man står i förhållande till andra. Och man har respekt för dom som är bättre.

De idrottsliga prestationerna – ofta förbluffande och mycket imponerande – har vi redovisat i GT tidigare under veckan. Så dem kan vi lämna därhän.

Men det finns någonting annat som jag inte kan glömma. Någonting som gång på gång slog mig under tävlingarna:

Dessutom är det så att man tävlar lika mycket mot sig själv som mot andra. Huvudsaken är liksom att man har något MÅL att sikta på. Därför är det bra med veteran-VM.

När jag gick omkring och tittade på alla dessa tanter och farbröder och pratade med dem fick jag ett intryck av att gemenskapen var lika viktig som själva tävlingarna. Just att man fick träffas och umgås tillsammans.

Kamratskapet blir ibland satt på undantag i elitidrotten – särskilt när det kommer pengar med i spelet. Men i veteran-VM kunde man verkligen tala om solidaritet och sammanhållning över gränserna.

Ulf Jansson's comments (translation)

Look at all these faces! One Japanese, one American, one Swede, one West German and one Englishman. They all have something in common. They radiate harmony! Although it has not been scientifically proved, I found during the Veteran Championships last week decisive proof that it is healthy to participate in sport. Certainly it makes growing old easier if you take regular exercise. Many people probably consider that it is sheer lunacy for 70, 80 and 90 year-olds to compete against each other. The risk of a heart attack, a broken bone or at least a pulled muscle must be great. We are talking about old and frail people. But it so happens that actual competition is the life blood of sport and its ultimate goal. Without competition sport would be dead. There have been attempts by GIH\* and by certain Swedish Athletic Federations to disregard this fact. It has been implied that it is ungentlemanly to win, to defeat opponents. Yet it does not work like that "on the field". The truth is that one is anxious to know how one stands in relation to others. One feels respect for those who are better. The actual Athletic performances - amazing and impressive though they are - have been accounted for earlier in the week, so we can dispense with them now.

But there is something else I cannot forget. Something that struck me time and time again during the competitions. What self-confidence these people have. It is not always easy to grow old. One can feel pushed aside, useless and perhaps neglected. It is perhaps said that one cannot contribute to production. If so, then sport is a great way of retaining your self-esteem. Just knowing that you can still control your own body means so very much. Moreover you compete as much against yourself as against others. The main thing is that one has a goal. That's why the Veteran Championships are such a good idea.

As I walked around watching and talking to these elderly ladies and gentlemen, I got the impression that the feeling of togetherness was just as important as the actual competition. Just the mere fact that one could meet and associate with each other! Comradeship is sometimes neglected in Elite Sports - especially when money is involved. However, in the Veteran Championships solidarity and comradeship have no boundaries.
