DATE MAILED:

The ABC Ladder teaches athletes and rehab patients agility, balance and coordination movement fundamentals. This easy roll-up unit doesn't tangle, lies flat and is easy to tote with you. It actually stores on its own handle. Nylon bound, it is 10' long, 18" wide with hard, flat plastic rungs forming 18 squares. Both rehab patients and athletes consider it a fun exercise as they walk, run, bound, hop between the rungs to improve proprioceptive abilities and lower extremities function.
