MARATHON & 20 KM WALK · JULY 4 at MISSION BAY
Sponsors: San Diego Track Club, San Diego Rec. Dept.

SOUVENIR PROGRAM \$1.00

WELCOME TO THE MASTERS . . .

Welcome to the Fourth Annual U.S. Masters Track and Field Championships. We of the San Diego Track Club are proud that our meet has steadily grown along with Masters Track and Field and hope that you recognize that it has been no mere coincidence.

David Pain, the founder of the meet, and most of the other members of the San Diego Track Club have put in many hours of work to make it a success. They, along with the members of the San Diego Track Officials Association, the San Diego Recreation Department and the athletes who have paid their own way—sometimes from as far as Western Australia or Europe—have collectively made this into the model which has engendered many other similar meets throughout the country.

This year you will note some changes.

As you can see from the cover, the 1971 Masters will be the first A.A.U. National Track and Field Championships for athletes 40 years of age and over. Final contract signings with the A.A.U. were not completed until well after the time that the order for official A.A.U. medals had to be placed. We therefore ordered, and will be awarding the traditional Masters medal for the last time.

For those of you who win an event this year, we can declare that you are as official a National Champion as our San Diego Track Club member Arnie Robinson, who won the A.A.U. long jump title last week at Eugene, Oregon.

The number of events has been increased, along with the divisions of participation, and we are offering more medals. This has prompted more entries than ever, and we hope that athletes recognize and sympathize with the need for their remaining off the field and track except during the periods of their own competition.

Thank you for coming, I hope that your stay in San Diego is as pleasant for you as it is for me to welcome you.

KEN BERNARD
Meet Director, A.A.U. Masters
National Track and Field Championships

THE SAN DIEGO TRACK CLUB

The last few years has seen an explosion of interest in participation in Track & Field and the allied sport of Long Distance Running among people outside conventional school programs. Many athletes are no longer satisfied to retire after graduation from school. Men nearing middle age and even housewives are finding that the individual, disciplined competition of this sport adds a new and exciting dimension to their lives.

The San Diego Track Club (SDTC) is a prototype for the kind of club that's needed to serve all these groups. Athletes of all ages and abilities will find a place within the club, from the world class athletes wearing SDTC colors at the AAU Championships at Eugene, Oregon last week, to the 70-year-plus runners in the Masters.

Besides the "A" team, there is also a "B" team for athletes of lesser ability and a veteran team for men over 40 years of age. Women are welcome to join and SDTC is in the forefront of women's Long Distance Running.

Not content to merely sponsor teams, SDTC conducts a complete program of Track & Field and Long Distance Running activities in the San Diego area. This program includes many road and cross country races, a series of all-comers track meets in the summer and early spring, the U.S. Master's Meet which you are watching, and the San Diego Relays. on this program requires thousands of hours of volunteer work by SDTC members who are dedicated to the sport and its development in San Diego.

The SDTC membership list contains people of all ages from 10 to 72 whose common denominator is an interest in Track & Field. Many high school and college athletes join to receive reduced entry fees to club sponsored competitions or simply to be associated with this vibrant and active organization. Coaches and fans often join to receive our monthly newsletter with its schedule of coming events, results and other articles of interest. If you would like to find out more about San Diego Track Club, write: DAVE DAVIS, Membership Chairman, SDTC 5719 Red River Drive, San Diego, Ca 92120

OFFICIALS AND CREDITS

Meet Director Ken Bernard
Marathon Director Bill Gookin

GENERAL INFORMATION

Registration:

Friday and Saturday, July 2 and 3—from noon to 2:00 p.m. at the southeast (open) end of Balboa Stadium.

Marathon registration and 20 Kilometer Walk registration is from 6:00 a.m. to 6:35 a.m. on July 4 on the west side of West Mission Bay Drive (across from the Bahia Hotel) but Marathon and 20 Kilometer Walk entrants may register at Balboa Stadium on July 2 and 3 at the hours listed above.

You must register at least one hour before the scheduled time of your event, and you should report to the Clerk of the Course on the field, at the north (closed) end of the Stadium at least one-half hour before the event.

Workouts:

The Stadium track and infield will not be available for workouts after 1:00 p.m. on Friday and Saturday. Please cooperate and confine your workouts to the upper field, to the north and west of the north (closed) end of the stadium. The compressed schedule and greater number of entrants require a clear infield so that officials and athletes can perform efficiently.

Results:

Results will be posted soon after your event on a board in the north (closed) end of the stadium in the lower rows of seats. If you want a complete listing of the results (available 2-3 weeks after the meet) please sign up to receive them at the registration desk. We will make a modest charge to cover the expenses of producing this extensive compilation.

Awards:

A handsome commemorative patch will be given to each competitor. Special awards will be awarded to the Outstanding Athlete in each age-group Division, with a second award to the "other" category winner within the Division. That is, if a field event man wins the Outstanding Athlete Award in his Division, a track event

man will receive the "other" award within that Division. Presentation-class medals from the special Masters die will be awarded as follows:

*Running Events: Div. 1, 2, & 3: 1st through 6th Div. 4: 1st place

*Field Events: Div. 1, 2, & 3: 1st through 6th Div. 4: 1st place

Walks: Div. 1 & 2: 1st through 3rd (1 to 6 in 20 K.) Div. 3 & 4: 1st place

Masters Six (100, 440, Mile, L.J., 12 lb. Shot & Jav.): Div. 1: 1st through 6th Div. 2: 1st through 3rd Div. 3 & 4: 1st place

Relays: Div. 1: 1st through 3rd Div. 2: 1st place

Marathon: Div. 1: 1st through 15th Div. 2 & 3: 1st through 5th Div. 4: 1st place

*NOTE!!! Not all events will have competition in all Divisions. Please refer to the Schedule of Events for competitive Divisions within each event.

Other awards will include Marathon completion certificates to all finishers, trophies for the oldest athlete and for the one who has traveled the greatest distance, and awards to the first three teams in point scoring. Except for special awards, Marathon & 20 Kilometer Walk awards, and Outstanding Athlete award, all medals will be presented soon after the finish of the event at Balboa Stadium. The Awards Banquet, which has been an outstanding feature of previous years, will again be held on Sunday, July 4, at 2:00 p.m.

Awards Banquet:

The Awards Banquet (with no-host refreshments available at 1:00 p.m.) will be held this year at the Bahia Hotel (where the Marathon finishes) at 2:00 p.m. on July 4, 1971, on the top floor of the newer building closest to West Mission Bay Drive. Dinner price is \$7 (\$6 for children under 10 years) and reservations may be made at the registration desk if you have not already done so.

1971 MASTERS MARATHON INSTRUCTIONS

Check in at 6:00 A.M. July 4, 1971 West of West Mission Bay Drive—across from the Bahia Hotel. (Dressing area and showers are at Mission Bay Plunge—to the west of Mission Boulevard in Belmont Park). Race starts promptly at 6:45 A.M. west of Mission Bay Drive (across from the Bahia Hotel) and then circles Belmont Park via San Fernando Place, Ocean Front Walk, Ventura Place and back down Mission Boulevard to the Jetty. Turn right toward the parking lot there and right again onto Ocean Front Walk to Ventura Place. This time cross Mission Boulevard and continue east on the left side of the road past Bahia Hotel and over Ventura Bridge on West Mission Bay Drive. Turn left just past Ventura Bridge and continue around Dana Marina parking lot and across Ingraham Street toward Atlantis Restaurant, then hard right and, keeping to the right here, pass the entrance to Sea World and go around East Mission Bay via Sea World Drive and East Mission Bay Drive.

At De Anza Cove continue straight ahead to Grand Avenue and around Mission Bay Golf Course to Morrell Street, left on Morrell and around Crown Point via Crown Point Drive and Riviera Drive, left on Pacific Beach Drive and left again at Mission Boulevard to San Rafael Place and then right onto Bayside Walk to Mission Bay Drive at the Bahia.

Repeat the loop around Mission Bay to the finish in front of the Bahia Hotel.

THE MARATHON

If you are over 40 and like to run long distances, chances are you are in trouble in your community.

You fit in like a crew cut in a rock band. You are a freak to your friends and a security risk to the authorities. Be careful on an early morning run. You might wind up with your feet planted wide, leaning against a patrol car, explaining to a sheriff's deputy you aren't a burglar. Watch it on the country roads. The motorist who used to aim at bike riders has a new mark. You.

Don't tell your neighbors you plan to run the marathon. Twenty-six miles, 385-yards? Why not walk on hot coals for your kicks? Go over Niagara Falls in a barrel.

You can't blame the neighbors for rating you on a social level with the hippie, the campus militant and the underground movie producer. They don't see you in your proper role—as an astute advocate of physical fitness and mental alertness. What they see is a dum dum on the street at dawn in his underwear.

Once you adjust to the unsympathetic response from the uninitiated, you get on with the fun part—training.

Early in the game you learn that blisters can be irritating and even bloody. But you forget them at a certain point—like when a sore muscle becomes unbearable. Later, a sore muscle is nothing compared to the agony of an injured Achilles tendon. And that is mild up against the pain that follows separation of the metatarsal bones in your foot.

But you carry on and there comes a time when injuries are no longer a factor. You learn to live with them.

Next is the problem of making your body function correctly on a long distance run.

The marathon, for instance, takes more than strong legs and a good heart. The method is to run within the limits of your circulatory system which must deliver nutrients to the muscles, remove waste, and keep the body temperature at a safe level. A breakdown in the process disrupts the cooling system in the body and the resulting high temperature causes the runner to quit or collapse. You avoid this by staying within your limits and taking as much liquid and salt along the way as you can handle.

With all this working against you—your role as neighborhood kook, the aches and pains, the techniques required to avoid collapse—the question that cries for an answer is, why? What's it all about?

A look back in Greek history might help explain in part.

The key year is 490 B.C. The action is "where the mountains look on Marathon and Marathon looks on the sea."

A small force of Greek soldiers hacks away at an army of Persian invaders.

The Greeks are outnumbered but they have the psychological advantage. It's their home grounds. In a furious attack, they drive the Persians to the sea.

Leader of the route is Miltiades. As the Persians flee to their ships, his thoughts turn to Athens. He envisions the town's elders, gathered in the marketplace, worrying about the battle. Should they evacuate the city or prepare a victory feast? Miltiades summons Pheidippides, a soldier and a great runner, and orders him to carry news of the victory to Athens.

The soldier sheds his armor, tosses aside his shield and sets off over the hills. He completes the tortuous run, delivers the message, then falls dead of exhaustion.

Fadeout . . .

The years pass and it is 1896. Several nations have joined to revive the ancient Olympic Games that ran from 776 B.C. to 394 A.D. An event not included in the original competition is added in honor of the run made in 490 B.C. by Pheidippides. It is a run over the same course. They call it the marathon, and appropriately, it is won by a Greek.

Today, the marathon, the ultimate challenge in long distance running, is gaining rapidly in popularity.

And, as long as it is there—the marathon—why not run it?

MARATHON

(Sponsored by the United States National Bank)

JULY 4 AT 6:45 A.M.

Masters Record: 2:45:10.2 (1970)—Parnell

Special—and long overdue—thanks are extended to Dr. William Herrick, of the San Diego Track Club, for his support of the Masters Marathon. He, for the third year, has contributed the money for the purchase of the tee shirts for all Masters Marathon competitors.

THE FRANK TEPPER STORY

The "Frank Pepper Story" is one which can be best appreciated by people who have participated in Track and Field, and especially those in the over-40 age category. As is the case with track and field participation, Frank's story involves a struggle to achieve the best of one's potential — even in the face of extremes of pain and fatigue, and against all adversity.

Superficially, Frank's problems would seem obvious. Frank Pepper, age 23, is Coach of the University of Arizona Faculty Track Club, members of which are all age 40 or over.

How does a young coach, under these circumstances, maintain a proper attitude of discipline among his athletes? Frank has solved the problem: he doesn't try! Over-40 athletes are a strong-willed bunch in general, and the academic-types perhaps the worst of all. While Frank advocates interval training, his training advice is generalized and simple: "Do what ever you want, but do it to the maximum."

To understand why he believes so much in this, it is necessary to know the rest of the "Frank Pepper Story." Frank grew up in North Hollywood and attended U.S. Grant High School. After an undistinguished athletic career in high school, he enrolled in L.A. Valley College and was taken under the wing of Coach Laszlo Tabori. Tabori's rigorous interval training taught Frank standards of self-discipline which were to prove to be of immense value in his later life. In addition, Frank matured from a mediocre to a top-flight junior college runner. His best half-mile was about 1:52 but his all-time best performance was a 46.7 quarter in a mile relay which he ran in 1968. It was probably on the basis of this quarter mile that Coach Carl Cooper recruited Frank to run for the University of Arizona track team.

At Arizona, hindered by an injured ankle, his junior year was relatively unimpressive. But big things were expected for his senior year. His half-mile times were slowly being lowered and Frank was optimistically hoping for a breakthrough soon into the 1:51's or maybe even the 1:50's. Then one afternoon in May 1969, Frank's dreams of track achievement were brought to a crashing halt. While doing 110 wind-sprints on the infield, he was suddenly cut down by a wildly thrown discus. He was hit solidly in the side of the head and massive damage was done to his skull and brain. Even with the best of medical care, Frank remained unconscious day after day, with blood clots, hemorrhaging, and bone splinters constantly threatening his life. After more than two weeks most of his friends had begun to lose hope that he would ever again regain consciousness.

Then, after 28 days he finally showed some slight response, but it was apparent at this time that he was almost completely paralyzed. An ordinary person might have given up and remained a vegetable, but not Frank. With all these problems, he set out to achieve two major goals: to pass the few units still remaining for his graduation from the University, and to begin a program of physical fitness. Both proved to be major undertakings.

Coach Frank Pepper and His "Boys"

His overall situation began to show gradual improvement, but there were many setbacks. Finally, because of medication problems, he had to drop out of school before mid-year. However, before he left he helped to organize the University Faculty Track Club, and starting several people on interval training schedules. The achievements of these runners at the 1970 Masters were not outstanding, but Dr. Sellers' 5th place in the Division I 2-mile and sub-5-minute mile run were thrills Frank would not soon forget.

Then, in September 1970, Frank returned to the University. His academic progress was still painfully slow, but his physical improvement came in leaps and bounds.

By the middle of the Spring Semester, however, he had run a 6:03 mile, a 29.6 220, a 2:44 half, and a 82:00 10-mile. All unimpressive times to Frank, but amazing when one considers that the route of his progress began with almost complete paralysis. And perhaps even more important, he got a "C" in his Spring Semester course.

Frank still learns slowly, his speech is sometimes sluggish, his walk is a slight shuffle, and he still occasionally has a seizure . . . but he has come a long way. His natural enthusiasm and joy of life have never been lost, and he knows now that he will eventually graduate from the University and will be able to live a contributing and successful life.

Coach Pepper's "Boys" will be on display again in the 1971 Masters. Few awards will be won — he doesn't have much material to work with (even though he put in considerable time recruiting). However, Frank will expect maximum effort from every one, and with Frank himself as an example, how could he get any less?

Veteran Athletes

join the
U. S. MASTERS INTERNATIONAL TRACK TEAM

See the '72 Munich Olympic Games and compete in London and Cologne in International Track Meets, Cross-Country and World Veterans Marathon.

Age Group competition. Non competitors included for trips. Contact David Pain, 1160 Via Espana, La Jolla, Ca. 92037. Group limited to 500

EUROPEAN COMPETITION FOR MASTERS ATHLETES

David H. R. Pain

The U. S. MASTERS TRACK AND FIELD CHAMPIONSHIPS have come a long way since their inauguration by the San Diego Track Club in 1968. The meet is now generally accepted by veteran athletes as their national championship event. Official recognition came this year when the AAU for the first time sanctioned the U. S. MASTERS as THE national championships for veteran athletes. With this sanction will come in future years district AAU masters meets in all parts of the country culminating with the now well-established U. S. Masters. In four short years a new nationwide fitness program has been born.

The degree of interest as well as quality of competition has been such that many U. S. Masters athletes have banded together to form an international track and field team to journey to Europe in '72.

More than 200 athletes plus their families have signed up for a four-week tour to commence August 20th and to return September 21, 1972.

The athletes will gather in Los Angeles or San Francisco before departure for a kick-off meet and get-together and will then depart for London where they will compete in a cross-country event in Epping Forest and the All-British Isles Veteran Track & Field Championships at the British National Sports Center located on the site of the old Crystal Palace. This magnificent modern sports facility complete with tartan track will be the training site for the British Olympic team prior to their departure for Germany.

After six days in London, our team moves on to Munich for the Olympic Games. Since tickets are scarce and not all of our veteran team members are interested in viewing the Olympics, a two-week tour to Sweden will be available as an alternate. Athletes going to Scandinavia can expect lots of exhilarating competition hopefully highlighted by a Masters Meet in Stockholm against Sweden's best veteran athletes.

The Olympics conclude September 10th after which the Masters Team will meet in Cologne (Koln) Germany to engage in track and field competition with the German vets with the main feature being the World Veterans Marathon which will also include the 5,000 and 10,000 meters. The World Vets is generally accepted as the premier marathon with the best veteran athletes gathering world-wide for this event. Last year this event run in Sweden had ten men break 2:30 with a winning 2:24. These times are considered good by U. S. standards for open competition and must rate as exceptional where every entrant is 40 or older.

The European veterans excel at distances in excess of 1,500 meters. Our team will include sprinters, middle distance runners, as well as field event members. By arriving with a full complement of athletes we hope to stimulate veteran track and field abroad and inject this element into their present distance running program.

ROAD KING

A RUNNING AND WORKOUT SHOE
Designed by and for runners by
Don Bergin of New Zealand and
introduced in the U. S. after 7 years
of testing by New Zealand's best
distance runners.

Special For This Meet \$2.00 Off on
Any Shoe Purchase.

ROAD KING

HAS BLISTER RESISTANT FEATURES
Including a special toe shape and nylon padded tongue. This
comfortable, light weight shoe of highest quality glove leather
is hand formed and hand stitched. Workmanship guaranteed
to last. It's possible to get up to 3,000 miles of wear out of
this shoe.

ROAD KING

MINIMIZES ROAD SHOCK
With reinforced heel, padded ankle and a suede leather,
moisture absorbent inner sole for comfort. Soles are
of wear resistant composition with extras available.

Price: \$15.90 plus 5% tax — Calif. Res. only
Mailing — \$ 1.50

SUEDE KING

For Running and Casual Wear. Suede or
Smooth Finish. \$17.90.

ORDER NOW!

Submit shoe size plus a pattern of
your largest foot. Sizes 4-13½ for
men, women and children.
