February 25, 1994

The information in the 1993 U.S. Masters T&F Rankings book, as in the five previous editions, was compiled by volunteers, who gathered their data primarily from results published in the National Masters News. The compilers for the 1993 outdoor season were Larry Patz, New Hampshire; William Benson, New York; John Dickey, Missouri; Charles Mercurio, California; Sally Polk, New Mexico; Rex Harvey, Ohio; and Bev LaVeck, Washington. Most of them also compile indoor event rankings, which are published in the NMN after the season ends. For giving freely of their time, energy, and expenses, the rankers deserve special recognition.

The rankings segment of the USA Track & Field National Masters T&F Committee is funded by an allocation from the Committee, which is chaired by Barbara Kousky.

Al Sheahen and Angela Egremont of the NMN, and Pete Mundle, Masters Records Coordinator, provided help and facilitated production of the book.

Most of the marks by open athletes in the rankings were made in competition as submasters in a masters meet, the results of which were published in the NMN. Other athletes submitted verified marks made in open or collegiate competition.

The times in the walks were taken only from races that indicated evidence of at least two judges or that there were DQs.

Changes to these 1993 rankings will be published in next year's issue. A question mark after the name indicates a problem with the correctness of the athlete's name or age division; a question mark after the mark indicates uncertainty about its accuracy.

Jerry Wojcik, USATF Masters T&F Rankings Coordinator
